Santiago, Pipo

Features:

1. Login

    a. UI:

    b. Steps:
- i. Click the MPIN Login Button to open the keypad
- ii. Enter your pin (3333)
- iii. An Incorrect MPIN will prompt an error message

2. Send Money

    a. UI:

    b. Steps:
  - i. Input a valid recipient number (10 digit long starting with "9")
  - ii. After entering a valid number, an input box will appear for the amount
  - iii. Input the amount to send (Within the user balance, non-zero and negative)
  - iv. Confirm the transaction
  - v. Your balance will automatically be updated, deducting the amount sent
  - vi. The transaction along with the information can be viewed from the Transaction History page
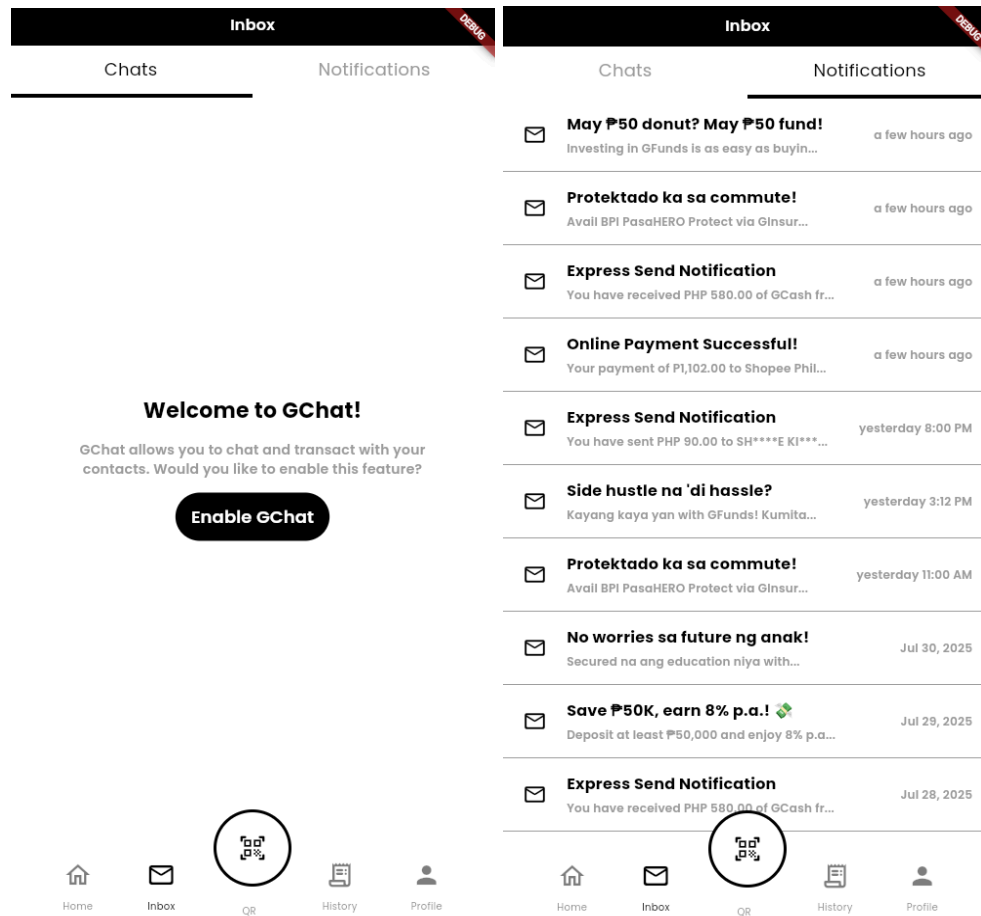

3. Cash In
    a. UI:

    b. Steps:

       i. Select a Bank to cash in from. You can also search for specific banks for easier navigation. For simplicity, the App only has BPI's interface since each bank has different cash in flows.

       ii. Enter the amount you want to cash in.

       iii. The App will send a prompt if the cash in was successful.

   iv. Check your balance in the home page to see your new balance.

4. Inbox

a. UI:

b. The Inbox page has two tabs: Chats, and Notification.

c. The chats page shows a UI of a new feature in the app.

d. The notifications page contains promos and notifications from GCoins.
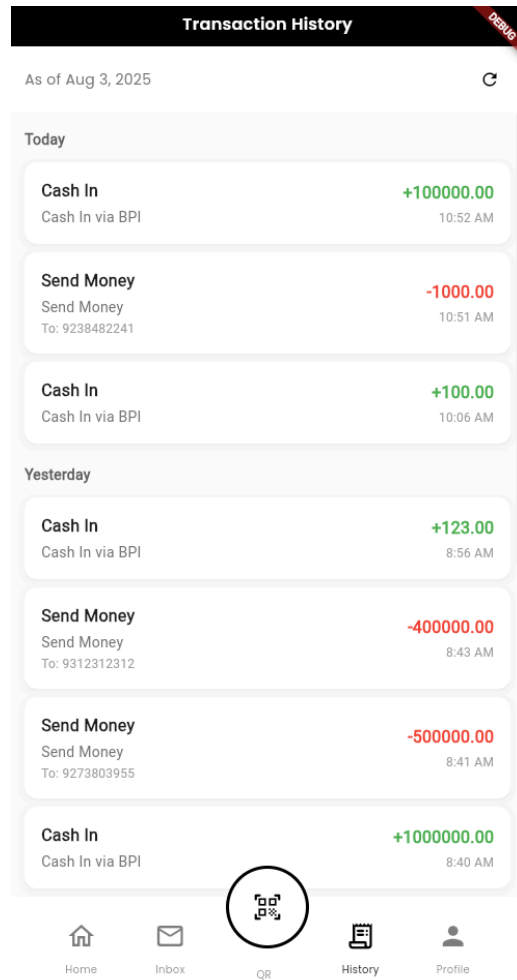

5. QR

    a. UI:

    b. The QR page displays the QR of the user where people can send money to.
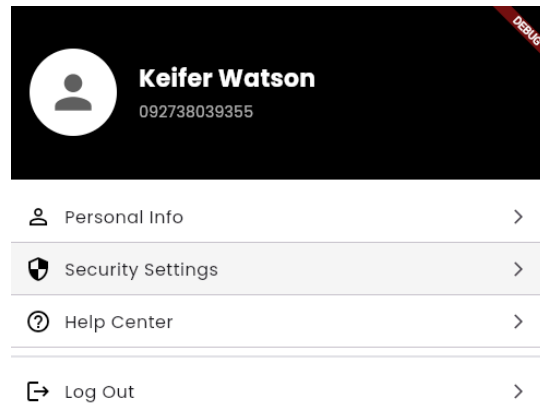

6. Transaction History

a. UI:

b. Shows all past transactions, whether cashed in or sent, along with the details such as timestamps, amount, bank, and account number will be displayed.
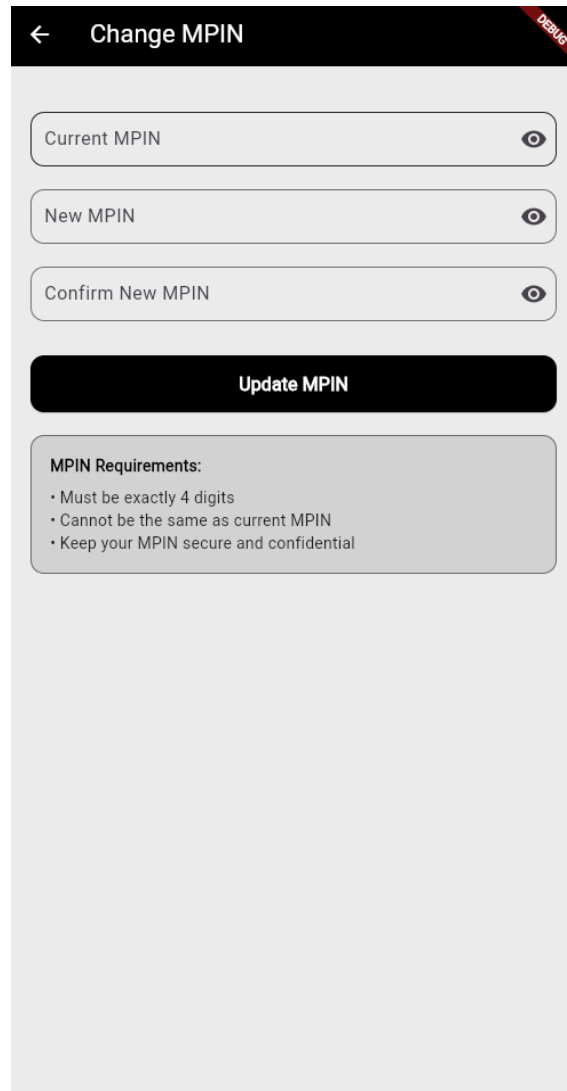

7. Profile

    a. UI:

    b. Displays the Profile of the account of the User.

8. Change PIN

a. UI:

b. Steps:
   i. Go to Profile in the bottom right corner.
   ii. Click Security Settings.
   iii. Enter your current MPIN and your new MPIN.
